

Welcome to the Auto Tech program at Region 10 Technical High School! Our program provides hands-on training in automotive repair and maintenance, preparing students for exciting careers in the automotive industry. Under the guidance of experienced instructors, students learn to diagnose and fix a variety of vehicle issues using state-of-the-art tools and equipment. The curriculum covers everything from engine repair to brake systems, ensuring comprehensive knowledge and skills. Our graduates are highly sought after by employers and have the option to pursue further education or enter the workforce directly. Join us to kick-start your journey in the dynamic and ever-evolving automotive field!
