

Welcome to the Building Trades program at Region 10 Technical High School! This program provides students with the foundational skills and knowledge needed for a career in the construction industry. Through hands-on projects and real-world experiences, students learn various aspects of building construction, from framing and roofing to finishing and remodeling. Our instructors, who are seasoned professionals, ensure that students gain practical skills and safety expertise. Graduates are prepared to enter into future careers as carpenters, construction managers, general contractors, and site supervisors. Join us to lay the groundwork for a rewarding career in the building trades!
