

Welcome to the Certified Nursing Assistant (CNA) program at Region 10 Technical High School! Our program is designed to provide you with the essential skills and knowledge needed to begin a rewarding career in healthcare. As a CNA, you will play a critical role in patient care, providing compassionate and hands-on support to those in need. In our program, you'll learn the fundamentals of patient care, including vital signs monitoring, personal care, and assisting with daily living activities. You'll also gain experience in medical documentation, communication with healthcare teams, and understanding the ethical responsibilities of a CNA. Our curriculum is guided by experienced healthcare professionals who will mentor you throughout your training. A key component of our program is the hands-on clinical experience, where you'll apply what you've learned in a real-world healthcare setting. Whether it's in a hospital, long-term care facility, or home health environment, you'll be well-prepared to deliver high-quality care with confidence and compassion. Upon completion of the program, you'll be eligible to take the CNA certification exam, opening the door to numerous employment opportunities in the healthcare field or further education in nursing or other medical professions. Join the Certified Nursing Assistant program at Region 10 and take the first step toward making a meaningful impact in people's lives through a career in healthcare.
