

Welcome to the Emergency Medical Technician (EMT) program at Region 10 Technical High School, where we prepare you to take on one of the most critical roles in healthcare. This intensive one-year program is designed for students passionate about saving lives and providing urgent care in emergency situations. In our EMT program, you'll build a strong foundation in emergency medical care. Through hands-on training, you'll master essential skills like basic life support, CPR, trauma assessment, and airway management. Our state-of-the-art facilities provide the perfect environment for you to practice these skills, simulating the real-world scenarios you'll face in the field. Classroom instruction goes beyond the basics, covering anatomy, physiology, and the principles of emergency medical services. This ensures you not only know how to perform the tasks but also understand the science behind them. As part of your training, you'll participate in clinical rotations, where you'll apply your knowledge in actual emergency settings, gaining the experience needed to handle high-pressure situations with confidence. Graduating from this program, you'll be well-prepared to take the EMT certification exam and start your career in the emergency medical field. Whether you choose to work as an EMT, ambulance operator, emergency room technician, or even pursue further training to become a Paramedic or Nurse, the skills you gain here will serve as a strong foundation for your future. Join us in the EMT program at Region 10 Technical High School, and take the first step toward a rewarding career in emergency medical services, where your quick thinking and dedication can make a real difference in people's lives.
