

Welcome to the Pre-Apprenticeship program at Region 10 Technical High School, your gateway to a rewarding career in the skilled trades. In this program, you'll gain the foundational skills and knowledge needed to succeed in a variety of trades, from carpentry and plumbing to electrical work and metal fabrication. Our hands-on training is designed to give you real-world experience, preparing you to enter an apprenticeship or the workforce with confidence. Guided by industry professionals, you'll learn essential techniques, safety protocols, and trade-specific practices that will set you apart. Whether you're measuring, cutting, welding, or wiring, our curriculum ensures you're well-prepared for the challenges and opportunities ahead. With the skills you develop here, you'll be ready to step into an apprenticeship or entry-level position and begin building a successful future in the trades. Join us in the Pre-Apprenticeship program and take the first step toward mastering a skilled trade and shaping your career.
