

Welcome to the Creative Digital Media program at Region 10 Technical High School! Our program provides students with the creative and technical skills needed to thrive in the digital media industry. Students learn to use industry-standard software to create visually compelling designs for print and digital media. The curriculum covers key areas such as typography, layout, branding, and user experience design, and students earn 6 college credits a year in this program. Under the mentorship of experienced designers, students develop a strong portfolio and gain practical experience through real-world projects. Graduates are equipped for careers as graphic designers, web designers, art directors, and digital media specialists. Join us to unleash your creativity and build a dynamic career in Creative Digital Media!
